BYORNE MYCO D COYUNES

Diploma in Information Technology
0961-269-5518 | coyunesbyorne@gmail.com | San Antonio, Sto. Tomas City, Batangas

CAREER OBJECTIVE

Information Technology student possessing hands-on experience in web application development, database design, network administration, and computer hardware servicing, I am eager to apply my technical knowledge in a professional environment, contribute to meaningful projects, and further develop my skills under the guidance of experienced industry professionals and also to learn new things I haven't tried before.

EDUCATION

Polytechnic University of the Philippines
A. Bonifacio Street, Poblacion II, Santo Tomas, Batangas
2024 - Present

HONORS & AWARDS

- Dean's Lister — First Semester, A.Y. 2024–2025, PUP Sto. Tomas Campus
- President's Lister — Second Semester, A.Y. 2024–2025, PUP Sto. Tomas Campus
- Dean's Lister — First Semester, A.Y. 2025–2026, PUP Sto. Tomas Campus
- Dean's Lister — Second Semester, A.Y. 2025-2026, PUP Sto. Tomas Campus

TECHNICAL SKILLS

- Languages: HTML5, CSS3, JavaScript, PHP, SQL, Java, Python
- Frameworks & Libraries: Bootstrap 5, vanilla JS (modular/IIFE patterns), PDO
- Database: MySQL — Schema Design, Normalization (1NF–3NF), ERD Modeling
- Design: Figma (UI/UX Wireframing and prototyping)
- Networking & Systems: Network Administration, LAN Configuration and Troubleshooting, Basic System Administration
- Hardware: Basic Computer Hardware Servicing, Assembly, and Troubleshooting
- Tools & Platforms: Git, GitHub, XAMPP, VS Code, MySQL Workbench, phpMyAdmin

SOFT SKILLS

- Problem Solving
- Attention to detail
- Collaborative development (Git workflows with multiple developers)
- Adaptability
- Time Management
- Willingness to learn new tools quickly.

PROJECTS

Artovia — Art Commission Marketplace (Web Development Finals Project)
PHP, MySQL, PDO, Bootstrap 5, JavaScript

- Built a multi-role marketplace platform (client, artist, admin) using a front-controller architecture with PDO-based data access.
- Developed payment and transaction history features, including filterable status tabs, search, pagination, and receipt modals.
- Designed an admin dashboard with live database-driven views for commissions, payments, and user management.
- Produced a normalized relational schema (UNF to 3NF) with an ERD to support data integrity across core tables.

Personal Portfolio Website (Github)
HTML, CSS, Bootstrap 5, JavaScript — https://byokuu.github.io/

- Designed and built a responsive personal portfolio site with tab-based navigation

.

Genshin Impact Characters & Items Index (Web Development Midterms Project)
HTML, CSS, Bootstrap 5, JavaScript, GenshinAPI — https://byokuu.github.io/Midterm/index.html

- Built a Genshin Impact Index site using GenhinAPI to display all the characters, weapons, and other items from the game, also integrated a search to search for a player inside the game using their UIDs.
- Implemented a responsive Bootstrap 5 interface with dynamic content loading for characters and items inside the Genshin Impact Game and a simple gacha wishing with all the characters.

TRAINING & SEMINARS

"Wonders of UI/UX Design: Where Creativity Meets Functionality"
Polytechnic University of the Philippines – PUP 4th floor
Sto Tomas, Batangas
April 18, 2026
